Before I started studying architecture, I chose art to express my feelings and thoughts. I started art by painting and playing the electric guitar.

Later, when architecture came into my life, this aspect developed with design knowledge. My multidisciplinary perspective in every aspect of my life has enabled me to add different values to different works.

If I were to summarize my understanding of architecture in one sentence, I would say, "I love to combine different understandings, cultures, materials, and disciplines."

EDUCATION

- 2019' ◊ Ortaklar Fen Lisesi | Aydın
- 2024' ◊ Yıldız Technical University | Istanbul
Faculty Of Architecture

LANGUAGES

- Turkish ◊ native
- English ◊ B2
- German ◊ A1

EXPERIENCE

- 2021 ◊ Intern Architect | Kuşadası Vista Marin
As an intern architect at this construction site for two semesters, I learned how to organize the construction site, project management and application drawing.
- 2022 ◊ Metaverse Team Leader | YTU Design Club
I formed a team for YTU Design Club and did various works for metaverse design.
- 2022 ◊ Volunteer Architect | YTU Reality Lab
I designed virtual spaces for Yıldız Technical University.
- 2023 ◊ Architect | Eduverse Technology Inc.
I designed virtual spaces for metaverse platform.

SKILLS

- AutoCAD ◊ design
- Revit
- Rhinoceros Grasshopper
- Sketchup ◊ modelling
- Blender
- Enscape
- Lumion
- Unity
- Photoshop ◊ adobe
- Illustrator
- Indesign
